How It Works?

Businesses subscribe to the Kudoz Network and sign on their best customers. Sign up is free for non-business members.

Customers continue making Word-Of-Mouth recommendations to friends and family.

Recommendations are made through the Kudoz app, and can be sent by text, email, social media, or in person with QR codes. The user may receive an incentive (often times a coupon) provided by the business.

Recommendations are stored within the app until use.

The **business** receives new customers through the referrals. Upon receiving payment from a new customer, the referring member will be sent Points as thanks for bringing the business new customers. New customers can now begin referring their network to the business as well.

Everybody wins!

Member Benefits

As a consumer, you make the same Word-of-Mouth recommendations as always, but with Kudoz, you'll be rewarded for it! For every successful referral you make, the business will send you Points as a thank you for sending them new customers. In addition, if a business joins the Kudoz Network through your recommendation, Kudoz will give you 100 Points. Each Point equals \$1 USD.

You can use your Points in any business in the Kudoz Network, turn them into cash or donate them to an affiliated charity. We turn referrals into a win-win situation.

Ultimately, you're helping your friends and family with a great recommendation and getting paid for it!

At A Glance

Now consumers have an even better reason to shop at family owned businesses they love. Kudoz makes it easier to give the recommendations you're already in the habit of giving and saves them in a Virtual Wallet so they're there when you need it. Even better, get paid for something you already do for free. Our goal is for businesses and customers to work together to succeed. **Why?**

Because we're Kudoz!
